Boosting the Ratio of Lookers to Bookers; Multimap Signposts the Way to over 9,000 Hotels Worldwide on www.holidaycity.com

Multimap, one of the worlds leading online mapping providers, today announced the addition of its Location Map service to the global websites of HolidayCity, the world-class online hotel accommodation reservation service. Business travellers and holiday-makers can now find maps for over 9,000 hotels in more than 600 destinations worldwide (across Asia, the Middle East, Australia, New Zealand, Europe, and the US) quickly and easily. The new site enhancement is expected to give people the confidence to complete a booking by showing them exactly where a hotel is, and its proximity to places of interest, e.g., the beach, a particular venue, and tourist attractions.

deciding factors. In addition to Multimaps coming up trumps on both these fronts, the company also offers highly competitive pricing, excellent customer support, and a service that our customers find very easy to use. We are pleased with our choice, and feedback from our hotel partners has been very positive indeed!

To access Multimaps Location Map service only takes a few seconds. Visitors to www.holidaycity.com click on a city/country of interest; click on the locations and then on the individual hotel, and select the Location Map link for the particular hotel which theyd like to research. Multimaps then delivers a content-rich, street-level map, flagging up all the local points of interest, e.g., museums, shopping centers, and transport links, and highlighting the exact location of the hotel of interest with a red circle.

Chris Warrick, Managing Director of Multimaps Australasia, said, Multimaps has a long history of working with first-class players in the travel sector around the globe. Our location-based services are the perfect complement to travel web sites as choosing a hotel is largely determined by its location and whats in the surrounding area. We are delighted to welcome HolidayCity to our 1,000-strong portfolio of business clients and are pleased to be working with the team there to provide a valuable and easy-to-use service for holiday

Commenting on the deal, Lai-Huat Lee, CEO, HolidayCity, said, There are many reasons behind our choice of Multimaps as online mapping partner. Given the breadth of geography that our hotels cover, and the large volumes of traffic on our site, high-quality, comprehensive coverage and robustness of technology were key

About Multimap

Multimap is one of the worlds leading providers of mapping and location-based services. The company delivers more online maps, point-to-point driving directions and geo-spatial ("where's my nearest?") searches to more companies than any other supplier in Europe. All services are offered on mobile, PDA, kiosk, and interactive TV platforms and in multiple languages.

IP PBX

IP Phone System

The public website, www.multimap.com, provides a range of free, useful services to assist with everyday life. Key features include street-level maps of Europe, USA, Canada, New Zealand and Australia; road maps of the world; door-to-door travel directions; aerial photographs; links to location information; and services such as hotel, restaurant and entertainment booking. The public site attracts over 10 million unique users, registers more than 190 million page impressions every month, and is one of the top 10 most visited websites in the UK.
